

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	28 June 2026
Team ID	
Project Name	Strategic Product Placement Analysis
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

We used a template from the mural website for brainstorming and idea prioritization and the link for accessing our work.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

 10 minutes to prepare
 1 hour to collaborate
 2-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

 10 minutes

 **Team gathering**

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

 **Set the goal**

Identify how product positioning, pricing, promotions, customer demographics, and store factors influence sales. The goal is to generate ideas that improve product placement and maximize revenue.

 **Understand the Dataset**

Explore the dataset attributes, understand the relationships between variables, and identify the key factors that affect product sales before generating ideas.

Define your problem statement

How might we optimize product positioning to increase sales and improve customer purchasing behavior using data visualization and business insights?

 5 minutes

PROBLEM

Strategic Product Placement Analysis

Key rules of brainstorming

To run an smooth and productive session

-  Focus on solving the business problem.
-  Keep one idea on each sticky note.
-  Generate multiple product placement ideas.
-  Base ideas on available data and insights.
-  Select ideas with high business impact.
-  Group similar ideas before prioritizing.

Step-2: Brainstorm, Idea Listing and Grouping

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

🕒 10 minutes

TIP
You can select a sticky note and hit the pencil (switch to sketch) icon to start drawing!

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

🕒 20 minutes

TIP
Add customizable tags to sticky notes to make it easier to find, format, organize, and categorize important ideas as they're added to your board.

Step-3: Idea Prioritization

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

🕒 20 minutes

TIP
Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the **H** key on the keyboard.
