Define the Problem Statements

Date	28 June 2026
Team ID	
Project Name	Strategic Product Placement Analysis
Maximum Marks	2 Marks

Problem Statement :

This project aims to investigate the relationship between product positioning, sales performance, and consumer behavior. Using Tableau, we will analyze data to uncover insights into how different positioning strategies impact sales and consumer preferences. By visualizing the data, we aim to provide actionable recommendations to optimize product positioning strategies and drive revenue growth.

A retail company wants to understand the impact of product positioning on its sales and consumer behavior. They have collected data on sales figures, product placement, and consumer demographics. They seek insights into which product positioning strategies are most effective in driving sales and how they can tailor their marketing efforts accordingly. Through data visualization with Tableau, the company hopes to gain actionable insights to improve its product positioning strategies and increase revenue.

I am	Describe customer with 3-4 key characteristics - <i>who are they?</i>	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - <i>what are they trying to achieve?</i>	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - <i>what bothers them most?</i>	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists - <i>what needs to be solved?</i>	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - <i>how does it impact them emotionally?</i>	Describe the emotions the result from experiencing the problems or barriers

PS-1 : Product Placement Decision Making

I am	I'm trying to	But	Because	Which makes me feel
A Retail Store Manager responsible for product placement and sales performance.	Increase sales by placing products in the most effective locations and improving the shopping experience.	I cannot identify which product positions, promotions, and store locations generate the highest sales.	Sales data is scattered across multiple factors, making it difficult to discover patterns without proper visualization.	Uncertain about business decisions and worried about losing potential sales opportunities.

PS-2 : Marketing and Sales Optimization

I am	I'm trying to	But	Because	Which makes me feel
A Retail Business Owner responsible for increasing revenue and improving marketing strategies.	Improve promotions, pricing strategies, and customer targeting to maximize sales and profitability.	I do not know which customer segments and promotional strategies produce the best business results.	The available sales data is complex and difficult to interpret without interactive analysis and visual dashboards.	Frustrated because I cannot confidently make data-driven business decisions.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Retail Store Manager	Increase sales through better product placement	Cannot identify the best positions	Data is difficult to analyze	Uncertain
PS-2	A Retail Business Owner	Improve sales through better promotions and pricing.	I don't know which strategy works best.	I cannot clearly understand the sales data.	Confused about making business decisions.
